## Website Design Request Form

© PWD Group Ltd 2006

In most situations, you will need to provide all the text for your website and any images you wish to use. If you do not have any professional images, then you should talk to your website designer about acquiring these.

Please use this form to clarify your website design requirements. If you are not sure of some of the terms please click the above link and go to the Website Design Network website for clarification.

You will be able to communicate your design requirements more clearly to your website designer if you fill and complete this form. Please fill in the details and fax or e-mail your website designer with this information.

Before you race out and get a domain name and hosting for your website please talk to your website designer. (yes there are plenty of cheap options available, but you get what you pay for) It is most likely (not always) that your website designer will be able to offer you hosting and secure your domain name.

If you use your designer's hosting/domain acquisition service you will only need to deal with one person in the event of any technical problems. If you choose to host with your website designer and you have any hosting issues you will be able to avoid the piggy in the middle syndrome... host blaming the designer and vice a versa.

If any technical issues do come up, the buck stops squarely at the feet of your website designer.

Another thing that will help to smooth the way for you is to get your domain name through your web designer. This will mean you will not have to go through the process of a domain name transfer, everything will be in one place.

**Please check the appropriate box with a capital X**

<b>1. I WOULD LIKE A NEW WEBSITE</b>	<input type="checkbox"/>
<b>2. I WOULD LIKE TO REVAMP MY EXISTING WEBSITE</b>	<input type="checkbox"/>
